cleverand had a snowsform to celebrate Easter with, and arcording to the report late last night, it was still snowing.

Atlantic City had a heavy rain in the afternoon.

Boston had a rain which broke up the dress barade.

New York also had an afternoon shower, and Philadelphia did also.

It appears that the down-neur was general about 2

In Chicago the weather was fair but decidedly cool.
Light snows are reported from Michigan.

The rain was general along the Atlantic coast States and as far West as Pittsburg.

Under lowering clouds, and in a tor-

nets braved the elements for a little white. The best part of the parade was in the forenoon, when throngs went churchward upon the bread thorough-fare. In the affernoon the weather was it only for ducks, and the shrinking Easter bound remained indoors.

After a day of gloom, in which the lilles bent their beads beneath the steady downpour, just befure anneat, the golden over burst out in spiender from its West-tern bed, rasting an effugent brightness over the landscape before sinking behind the blue Virginia hills. The flowers took on a new life, and some belated promensaders took advantage of the clearing weather to take a stroll upon

The conservation of the retrivat in various churches did not suffer from the inclement weather, however. The Joycous music, the finery of the women, the happy faces of the children, and the heaviful decorations, all served to make a share contrast between the gloom of the outside and the Joycousenss within.

The Catholic and Epiacopal churches unbered the day in with early services, the churches of the other denominations choserving the day with morning, afternoon, and evening services. President Taft attended services at All Roul' Unitarian Church, Rev. Dr. Pierce provaching on the theme, "The Easter hope."

Many of the diplomatic circle attended high mass at St. Patrick's and heard Mgr. Russell preach on "The Ressurrection."

Bishop Harding Speaks.

Bishop Harding preached the sermon at St. Paul's Church to a typical EastFeady congregation, including many of Washington's well known people. Rev Eugene De Leon McDonnell, St. J., sang high mass at St. Aloysias' Church, two thousand incandescent lights transforming the sanetuary into a blaze of light.

LIEUT. READ WILL **NEVER WALK AGAIN**

Hope of Curing Paralyzed Officer Is Abandoned.

Two weeks ago an aged woman sat in an ante-room in the United States Na-vel Hospital and repeatedly inquired of the attendants the condition of her boywas Hospital and repeatedly inquired of
the attendants the conflitting of her boyLieut. Semmes Read. For three weary
hours als awaited a definite announcement from the operating room which
would tell her whether or not her invalid
sen was to walk and. Finally it came
recritude that has marked the attitude
of Lieut. Read during the three years
of imprincement suffered by him-she
was informed that he will never walk
again, and must be content to lie in bed
for the reat of his life.
The operation was only considered after
the young leutenant and his mother had
given their consent to Surg. Gen. Stokes
and Surg. Raymond Spear. U. S. N., and
the fact that such an operation might
prove fatal did not dissuade them from
their purpose to determine whether or
not a cure could be effected. Therefore,
an eminent surgeon was summoned, and
two weeks ago list Saturday the operation took place.

The surgoon who performed the oper-

It was announced at the hospital last night that the operation had done little if any good, and that the young officer would be a cripple the rest of his life. He may live twenty years, the authorities say, but never again with he be able to walk. It is not probable that another operation will be attempted. Another thing that makes the probability of another operation seem remote be the fart that Read is in poor condition to withstand the shock. His heart action is weakered and his consti-

apinal cord have completely Paralyzed him below the waist line. Despite his injury. Lieut, IPead is one of the most energial patents in the hospital, and no one knows better than be that he will never again be able to walk. He is holding out, however, believing that modern science may, within a short time, produce a remedy. The failure of Dr. Cushing, however, makes this possibility seem quite unlikely.

AMERICA LEADS **WORLD IN MEDICINE**

Sir Bertrand Dawson, Physician Extraordinary to King George, Compliments Our Hospitals.

son, is at the New Willard. Sir Bertrand was also consutting physician to Edward VII.

The emitteen physician hast night said that he in satisfied that America has autpassed Europe, especially in surgical science Dr. Dawson is on his way to Rochester, Minn., where, he declared, is altuated the world's greatest hospital, which is conducted by the Dr. Mayor. There he will remain several weeks making a special study of hygiene as exercised in that institution, and the Mayor diagnosis and operative treatment of diseases of the stomach, about American research and oppital work and the wonderful equipments that I decided to make a trip myself, and during the time I am here I must be regarded as a student. While in New York I valided the Rockefelier Research Institute and Hospital. It is the most wonderful institution of its kind in the world.

"Your wealthy men are extremely far-sighted and liberal in their attitude toward medical research," continued the eminent British surgeon. "When they see a big thing they don't daily with it. They go right at it. I am forced to admit that no cure has yet been found for cancer, but medical science is making great strides in the light direction, and America is doing a great share of the Nock."

Sir Bertrand will also visit the Johns Hopkins Henpital, at Baltimore. He will also make a special study of the municipal hospitals of the larger cities, especially the Cook Caunty Hospital, in Chizago, and the Bellevue Henoital, in New York, comparing the work there with that of the Loudon (thy Hospital, where until a few years ago he was in charge, resigning on account of private practice. Pr. Dawson is will a young man, but has written many volumes registed as standard texts in march all creates.
